

METROPOLITAN UTILITIES DISTRICT

Date: January 24, 2022
Project No.: GP2642
Project Area: N 22nd St to N 27th St and
Saratoga St to Taylor St
see reverse side for project map

Dear Metropolitan Utilities District Customer,

Metropolitan Utilities District (M.U.D.) continues to provide you with safe, reliable gas and water services by maintaining its system as efficiently and cost-effectively as possible. M.U.D. will replace the gas mains in your neighborhood as part of the District's Infrastructure Replacement Program. The work will require moving any inside gas meters to the outside of homes and businesses. All work and appointments associated with this project are at no cost to you. Work is scheduled to begin very soon and will continue for a couple months. You may see a technician from M.U.D. in your neighborhood surveying the project area.

This work may require up to three (3) appointments requiring access to your home or business—the first, to coordinate the location of the new gas service and meter, and the others to:

- Reconnect gas meter (M.U.D.)
- Relight gas pilots (M.U.D.)
- Inspect sewer lateral service (Roto-Rooter or Backlund)

Roto Rooter or Backlund will contact you. The required inspection work is no cost to you.

We will attempt to coordinate this work to be done at the same time as the meter reconnection and relight.

You will be contacted in the upcoming weeks to schedule these appointments. We strive to work with your schedule and do what we can to find a time that is convenient for you. This work may result in a brief planned temporary interruption of your gas service – a typical interruption could be four hours or less. Any appliance in your home or business that uses gas will not be available during the interruption (i.e., stove, water heater, furnace/boiler, etc.). Gas pilots will be relit by a M.U.D. technician after the interruption.

PLEASE NOTE: scheduling your appointments is critical, so work in your area can proceed to completion and your service is not interrupted. We must have all services switched to the new main in a timely manner before taking the old main out of service. We appreciate your cooperation.

This project area may experience possible traffic lane restrictions. For the safety of everyone, please slow down when driving in the area. If you have any questions or concerns, please reach out to me.

Sincerely,

Tina Gutschenritter
