## VII. IMPACT FEE

As new water demands are connected to the distribution system, additional capacity is needed to assure adequate flows and pressures from source of supply to general areas of consumption. Such capacity may be achieved through the building of reservoirs and/or pump stations in addition to looping, oversizing, enlarging, and reinforcing portions of the water distribution system. The purpose of the impact fee is to pay for a major portion of the growth-related costs without placing additional undue burden on existing customers.

The impact fee is based on the added demand to the water system, as measured by the size of the water meter.

Effective 6/1/2023

| Meter Size/Type | Continuous* Flow Rating | Flow Ratio | Impact Fee   |
|-----------------|-------------------------|------------|--------------|

\*Manufacturer's rating (gpm)

Impact Fees will be assessed on each water meter purchased from the District. The fees will be assessed on the size of the meter. When upgrading to any larger size meter, the applicant will pay the difference in impact fees, at the current rates, between the existing meter and the larger meter.

## **VIII. GAS SERVICE INSTALL, SERVICE, & METER ENLARGEMENT**

### **A. General Requirements**

1. Fixed or firm prices and deposits for estimated T & M installations shall be payable at the time application is made.
2. The first 100 feet of service from property line to the meter location shall be provided at no charge to the customer providing the following requirements are met:
  - The meter is installed and account activated within six months of the service installation date. If this requirement is not met, the cost of the service is \$1,485 (to be evaluated each year).
  - The meter is located on the side of the house. However, the District reserves the right to place the service and meter in the most economical location. If this requirement is not met (i.e.-the applicant requests the meter to be placed in a non-standard location which will cause increased costs for the District), the cost of the service will be based on a firm price provided by the District.
3. Single dwelling unit – all above requirements are met – No charge.
4. Duplex – per service – all above requirements are met – No charge.
5. Rehab houses – new application needed – all above requirements are met – No charge.
6. All units – excess footage charge:
  - Summer (March 16 – December 14) - \$15.30/ft.  
(To be evaluated each year)
  - Winter (December 15 – March 15) - \$18.80/ft.  
(To be evaluated each year)

7. A priority scheduling fee of \$200.00 (to be evaluated each year) shall be billed only in those instances where the applicant requests priority scheduling. Gas service shall be installed within 10 working days from receipt of application.

**B. Residential – Detached Building/Separate Service**

Gas service installation shall be provided in accordance with Section A, General Requirements, Part 2 (listed above). M.U.D. shall determine if a separate service or branch service off the house service line shall be installed to supply gas to the detached building.
