

PROJECT AREAS OUTLINED BELOW

UPDATE 10/5/2023

GAS MAIN INSTALLATION

100% completed

MISSOURI AVE WORK

Anticipated to be completed soon, including repaving

INSTALL NEW GAS SERVICES

53 / 304 gas services remain

These service areas are marked in yellow highlights in the map and need to be completed so the entire project can be completed. In addition, it is important cars are not parked in the streets in these areas so the crew can perform the gas installations.

RESTORATION

- Dirt work, lawns (seeding and matting) and landscaping remain
- Concrete (sidewalks, streets) remain

APPOINTMENTS requiring access to your home or business

- May require up to three (3) appointments—the first to coordinate the location of the new gas service and meter, and the others to:
 - reconnect your gas meter (M.U.D.)
 - relight gas pilots in your home or business (M.U.D.)
 - inspect sewer lateral service (Backlund Plumbing or Zoom Drain will contact you—the required inspection work is no cost to you)
- **You will be contacted** in the upcoming weeks to schedule these appointments. We strive to work with your schedule and do what we can to find a time that is convenient for you.
- This work may result in a brief temporary interruption of your gas service. A typical interruption could be 4 hours or less. Any appliance in your home or business that uses gas will not be available during the interruption (i.e., stove, water heater, furnace/boiler, etc.). Gas pilots will be relit by a M.U.D. technician after the interruption.

IMPORTANT TO NOTE

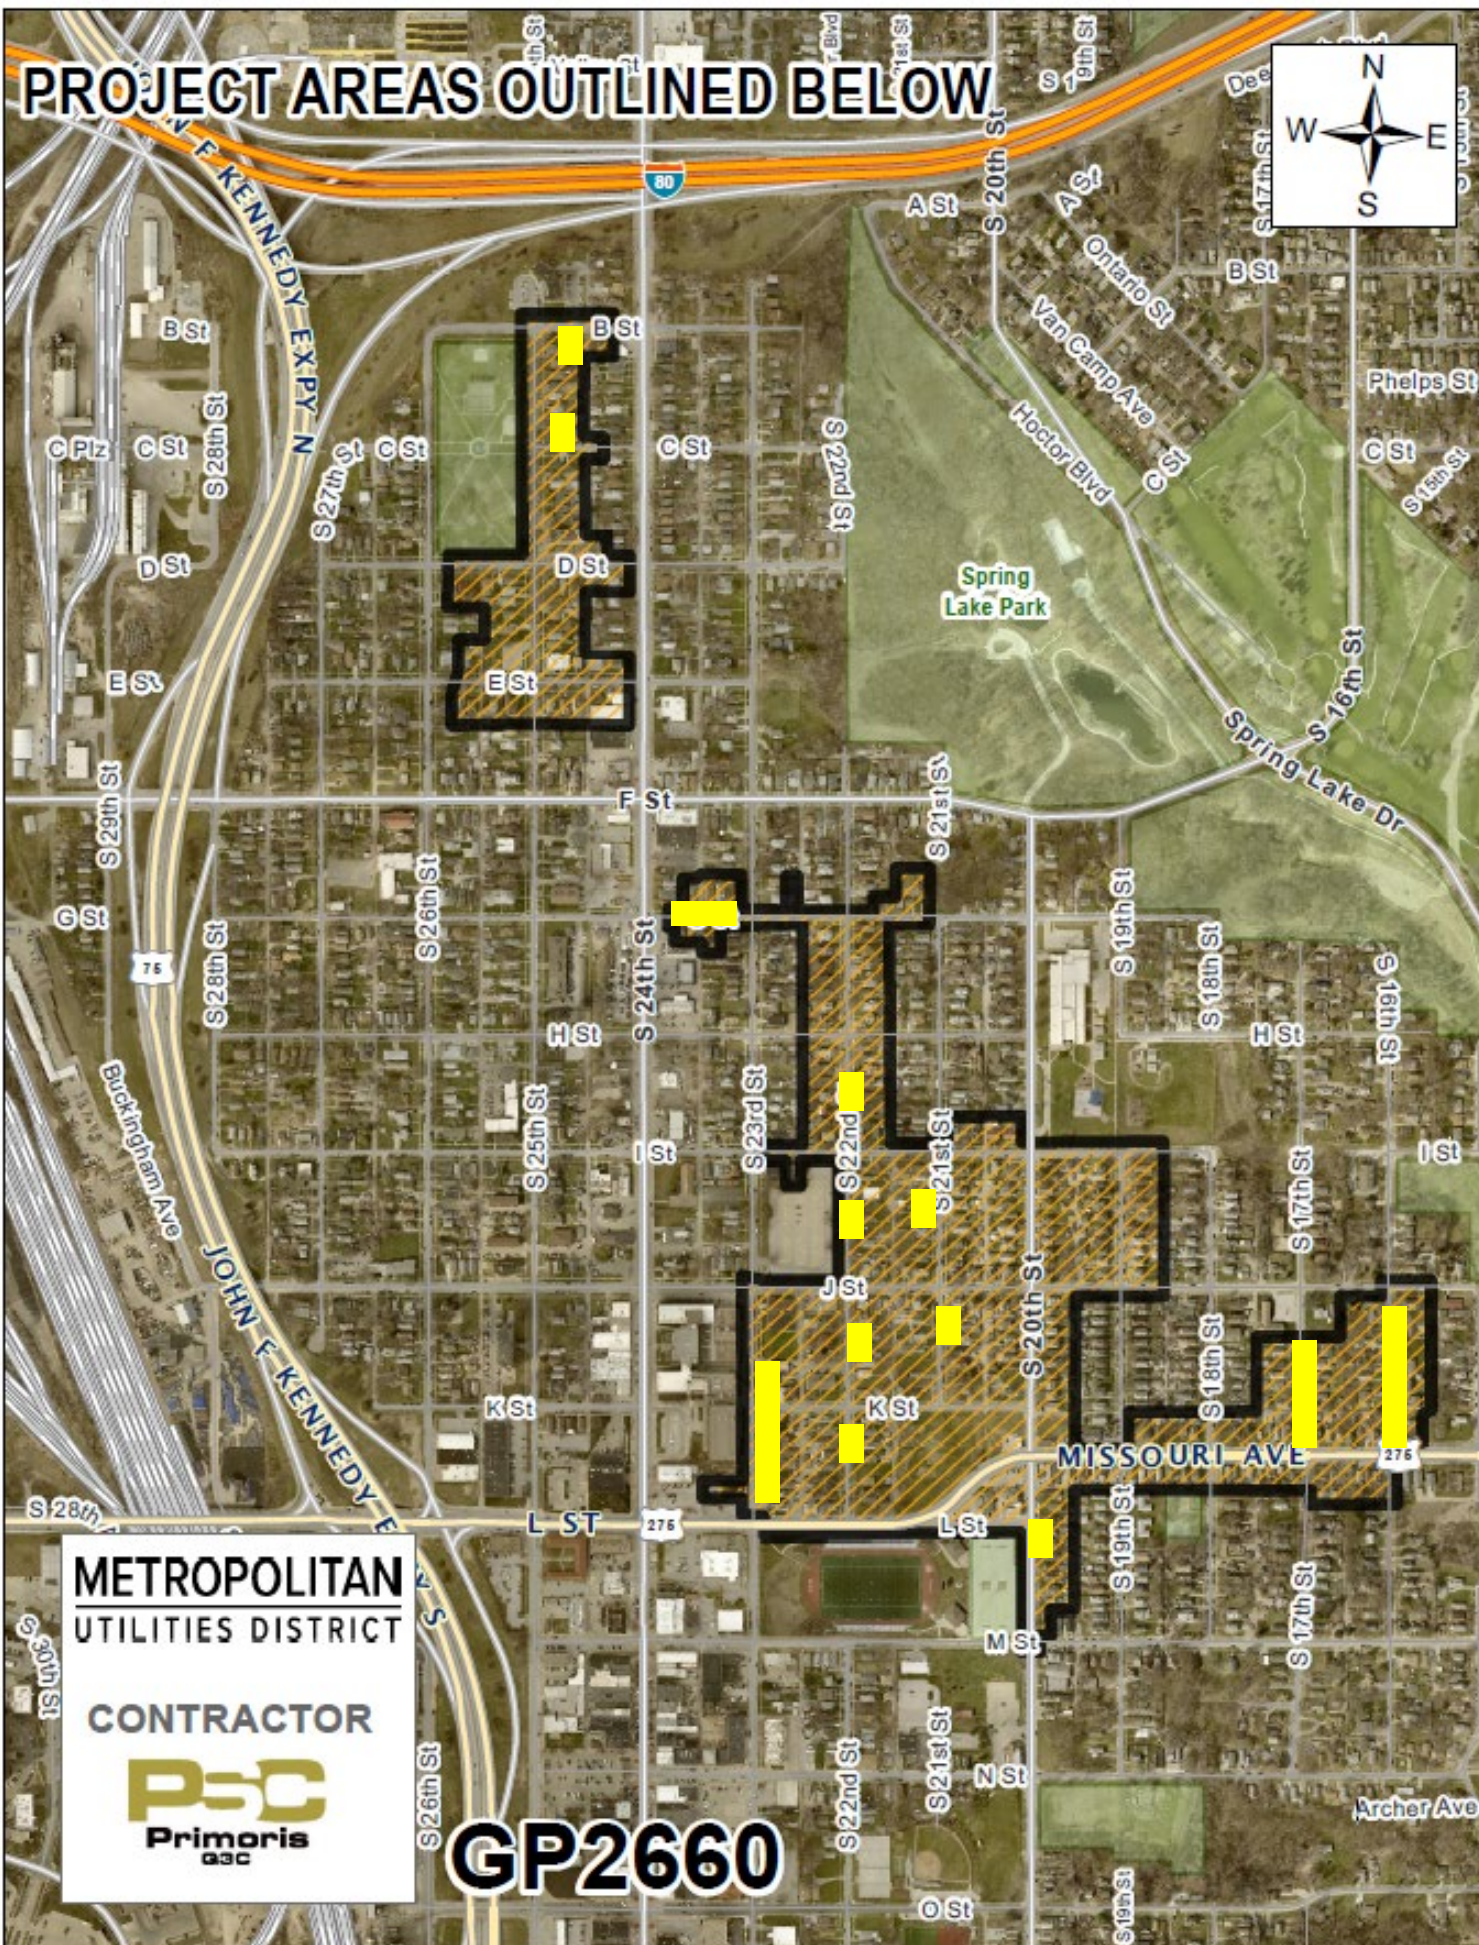

Scheduling your appointment(s) is critical so work in your area can proceed to completion and your service is not interrupted. We must have all gas services switched to the new main in a timely manner before taking the old main out of service. We appreciate your cooperation.
