

**S 45TH STREET**  
 All gas main has been installed, services have been reconnected and restoration is completed.  
 However, Q3 will need to return to this street to abandon the old gas main, which will result in some large holes at each end of this outlined area to complete the work. See two black dots.

All gas main in this area has been installed, services have been reconnected and restoration is completed, including 42nd St south to Center St.

All gas main in this area has been installed and services have been reconnected.  
 Customers will see temporary concrete placed in sidewalks marked with a "T" due to winter weather – this will enable customers to shovel sidewalks. All temporary concrete will be replaced Spring 2024, when all restoration will be completed.

**ABANDON.
