
METROPOLITAN UTILITIES DISTRICT

MULTI-FAMILY REBATE

Valid through January 1, 2026 – December 7, 2026 or until funds are depleted.

Metropolitan Utilities District offers a natural gas program for developers of multi-family housing projects that will pay up to **\$500** per unit when a natural gas furnace is installed. Additionally, a **\$100** incentive is available for natural gas dryers and a **\$50** incentive for natural gas ranges, water heaters and fireplaces. This Smart Choice provides tenants with the reliable, efficient, and clean fuel they prefer.

Program Requirements:

1. Eligible for new construction, renovations when dividing existing gas load out to individual tenants, and conversion to natural gas.
 2. Eligible buildings shall have three (3) or more attached dwelling units under a common roof and include apartment buildings, rowhouses, townhouses, and condominiums. Single-family homes divided into apartments do not qualify.
 3. Each unit must have a natural gas furnace and be separately metered. Heat pumps cannot be installed and utilized for tenant space heating.
 4. Rebate will be provided after gas meters are set and gas load verified. Limited funds are available.
