

**Update March 19, 2026.** *Water main installation continues. Services continue to be reconnected.*

The construction crew is continuing work in the Fowler and Meredith Circles areas. Camden Avenue will soon receive a new water main, with additional installations planned at the intersections of Redman Avenue, Grand Avenue, and North 93rd Street. Once the new mains are in place, the plumber will reconnect individual water services to the upgraded system.

— Proposed location of new water main

New water main installation continues. Once the new main is active, individual services will be switched to the new main.

Most individual water services have been switched to the existing parallel main.

Individual water services continue to be switched to the existing parallel main.
